

Do you need to use AI?

Need

Do you need to use AI?

Some tasks might be done better or more safely without the use of artificial intelligence.

Read

Have you read your school's data protection policy?

Your school might have approved AI tools you can use safely. Some AI systems learn from the data you upload, so it's important to ensure you're not inputting any personal or sensitive information.

Proceed

Review results and proceed with care

Always verify outputs from AI tools before relying on them. Fact check for accuracy, relevance, and ethical compliance.
